SUMMARY

Final-year student skilled in HTML, CSS, JavaScript, React.js, and the MERN stack. Experienced in deploying full-stack applications, passionate about developing efficient web solutions, and eager to contribute to impactful projects.

EDUCATION

Bachelor's degree in Computer Science and Engineering

Maharshi Dayanand University, Rohtak · Haryana, India · 2025

EXPERIENCE

Skyscanner Front-End Software Engineering virtual experience programme on Forage

Skyscanner   **August 2024 –August 2024, Online**

· Engineered a web application at Skyscanner using React, implementing a travel date picker with the Backpack library.
· Conducted automated testing to ensure functionality and a robust user experience.
· Optimized application performance and integrated best practices for responsive design.

J.P. Morgan Software Engineering Virtual Experience on Forage

J.P.Morgan   **July 2024 – July 2024, Online**

· Configured a local development environment and resolved repository issues for web application output.
· Implemented JPMorgan Chase's Perspective library for dynamic live graphs and enhanced data visualization.
· Developed financial software in Java and Python, boosting algorithm efficiency and increasing data processing speed by 25%.

PROJECTS

Music Web Application: Lyriks

Self_based_Learning · lyriks-ovml.onrender.com · August 2024 - August 2024
· Developed a responsive music web application with a beautiful UI/UX, including features for managing albums, playlists, and songs.
· Implemented secure authentication and data storage using MongoDB and Mongoose for user as well as song management.
· Established routing for frontend and backend, integrated music player functionalities, and included a comprehensive admin panel.
· **Technologies Used**: ReactJS, HTML, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose, Multer.js, Git & GitHub, VSCode, Render.

Full-Stack E-Commerce Website

Self_based_Learning · full-stack-ecommerce-peach.vercel.app · July 2024 - July 2024
· Developed a responsive e-commerce web application with a focus on beautiful UI/UX, ensuring optimal performance across all devices and integrating secure authentication and data storage using Supabase.
· Established efficient routing for both the backend and frontend, enhancing application navigation and user experience.
· Utilized Redux Toolkit for effective state management and integrated Stripe for secure and efficient checkout functionality.
· **Technologies Used**: Next.js, TypeScript, HTML, Tailwind CSS, Supabase, Stripe, Git & GitHub, VSCode, Vercel.

SKILLS

Front End: HTML, CSS, JavaScript, ReactJS, Redux, NextJS, TypeScript, Tailwind CSS, BootStrap, GSAP
Back End: NodeJS, ExpressJS, Stripe
Data Base: MongoDB, Mongoose, Supabase, Firebase
Tools and Technologies: Git, GitHub, Figma, Canvas, VsCode, Netlify, Vercel, Insomnia

CERTIFICATIONS

Generative AI for Beginners

Great Learning Academy · 2024
· Built a strong foundation in AI, specializing in neural networks and generative models.

Career Essentials in Generative AI

Microsoft and Linkedin · 2024
· Acquired knowledge of Generative AI and practical experience with Microsoft Copilot.
